EDUCATION

Kaiser Permanente Bernard J. Tyson School of Medicine (KPSOM), Pasadena, CA

Jul 2023 – present

M.D. expected 2027

- Honors in 9 of 9 clerkships and sub-internships

Visiting Clerkships in PM&R

- New York-Presbyterian at Weill Cornell Medical Center (July 2026)
- Spaulding Rehabilitation Hospital, Mass General Brigham (September 2026)
- Stanford University (November 2026)

Global Health Elective

- Refugee Health Alliance, Tijuana, México (January 2027)

Bowdoin College, Brunswick, ME

Aug 2017 – May 2021

A.B. in Mathematics and Biochemistry

- Phi Beta Kappa; magna cum laude; Sunrise Prize in Cinema Studies; Surdna Research Fellowship

School for Field Studies, Puerto Natales, Chile

- Study abroad in Climate Science, Patagonian Ecology, & Socio-Political Dimensions of Conservation (2020)

The College Preparatory School, Oakland, CA

Aug 2013 – Jun 2017

High School Diploma

- Spanish Department Award; National Cum Laude Society; Chemistry Commendation

HONORS, AWARDS, SOCIETIES

AANEM Medical Student Research Award

Jul 2026

AAP Distinguished Medical Student

Mar 2026

American Burn Association (ABA) Clinical Research Paper Award

Feb 2026

KPSOM Excellence in Student Research & Scholarship

Jan 2026

(Nomination) Dr. Mark A. Schuster Pillar Award for Service to the School

Jan 2026

ACP Southern California Region I: 2nd Place, Quality Improvement

Oct 2025

ACP Southern California Region I: 2nd Place, Clinical Research

Oct 2025

AANEM Medical Student Scholarship

Aug 2025

(Nomination) KPSOM Excellence in Stud. Res. & Scholarship Award

Jan 2025

ACP Southern California Region I: 1st Place, Clinical Research

Oct 2024

Professional Memberships & Certifications

- American Academy of Physical Medicine and Rehabilitation (AAPM&R); American Association of Neuromuscular & Electrodiagnostic Medicine (AANEM); Association of Academic Physiatrists (AAP); American College of Physicians (ACP)
- Clinician Cultural and Linguistic Assessment (CCLA) in Spanish

Society Leadership Roles

AAPM&R Medical Student Ambassador

Jun 2026–Present

AANEM Young Leadership Council

May 2026–Present

PUBLICATIONS

Peer-Reviewed Manuscripts

1. Pruitt K, Hukill MT, Torii M, Oliver D, Huang Y, Zisook D. Prompt-Engineered Large Language Models for Clinical Concept Abstraction of Fall Risk Documentation. *Journal of the American Medical Informatics Association*. Submitted, September 2026.
2. Yeung A, Hukill MT, Yan R, Hung P, Kwong E, Sahota A, Sim J. Characterizing Psychiatric Comorbidities in an Alcoholic Liver Disease Cohort in a Vertically Integrated Health Care System. *Journal of General Internal Medicine*. Submitted, August 2026.
3. Hukill MT, Johnson S, Ludwig K. From Problem Identification to Patient Outcomes: Mapping the Maturation of Physician Disability-Care Education Toward Practice Impact, a scoping review. *BMC Medical Education*. Submitted, August 2026.
4. Hukill MT, Clennin M, Duggan M, Green B, Brettler J, Gambatese R, Nkonde-Price C, Rana J, Ngo-Metzger Q. Prevalent Social Risk Without Corresponding Differences in Blood Pressure Control in an Integrated Health System. *The Permanente Journal*. Submitted, August 2026.
5. Hukill MT, Li K, Sandhu M, Behseta S, Orton C, Wiechman S, Glenn M, Beerman R, Sabel J, Hodapp J, Jason D, Carrougner GJ, Kowalske K, Gus E, Pham T, Mandell SP, Nathens A, Stewart BT. Re-envisioning Burn Injury Severity Scoring in the Burn Model System: Moving Beyond Burn Size with Computer Vision–Enabled Bayesian Modeling. *Burns*. Submitted, July 2026.
6. Hukill MT, Yeung A, Imam T. Improvement in peritoneal dialysis exit-site infection rates in an integrated health care system in the United States. *Frontiers in Nephrology*. Accepted/In-Press, September 2026.
7. Grobowski J, Morumganti A, DeGrauw X, Qiu Q, Kaur S, Marincasiu C, Orton CM, Hodapp J, Kazis LE, Johnson MB, Kowalske K, Wiechman SA, Jason D, Sabel J, Hukill MT, Wilkinson R, Carrougner GJ, Pham T, Stewart BT. Longitudinal Trajectories of Health-Related Quality of Life and Life Satisfaction After Major Burn Injury: A Multicenter Cohort Study. *Journal of Burn Care & Research*. June 2026;47(4):1009–1022. PMID: 42102185.

LEADERSHIP & SERVICE

Board Chair, Student Curricular Board, Class of 2027

Pasadena, CA • Aug 2023 – May 2027

- Liaised between Office of Medical Education, faculty, students, and the LCME on continuous curricular quality improvement
- Authored the Workload Compendium, leading a multiyear effort to synthesize and act on student-faculty feedback on the core clerkship year
- Held one of two student votes on the central curricular policy body; served on the Assignments & Assessments Working Group, Dean Search Committee, and LCME Site Visits

President, PM&R Special Interest Group

Pasadena, CA • Nov 2024 – May 2027

- Officially registered KPSOM's PM&R SIG with AAPM&R and AAP; engaged students with AAPM&R, AAP, ISPRM, and AANEM
- Designed and led sessions including an introduction to physiatry, MSK/neuropathology anatomy review, PM&R resident panels, POCUS workshops, and case-report navigation
- Mentored students considering PM&R, from KPSOM MS1/MS2s to DO/MD/IMG students nationally and internationally

President, Point-of-Care Ultrasound SIG

Pasadena, CA • Aug 2023 – May 2027

- Designed echocardiography and MSK anatomy/procedures sessions; coordinated with other schools and ultrasound conferences

Officer, Konnexión Paciente (Medical Spanish SIG)

Pasadena, CA • Aug 2023 – May 2027

- Co-led an OSCE-style inclusive sexual/reproductive health history event with the simulation team; led CCLA-oriented medical Spanish study groups

President, Athletic Social Club

Pasadena, CA • Aug 2023 – May 2027

- Created the annual Tennis and Pickleball Tournament; drove gym-equipment upgrades based on gathered student data

Community Tutor, Oakland Education Fund

Oakland, CA • Sep 2020 – Sep 2021

- Virtual Spanish-language tutoring for elementary school students

President, Bowdoin Bridge Club

Brunswick, ME

- Organized weekly lessons, play sessions, and tournaments; led general club activities and membership

Calculus Teaching Assistant, Bowdoin College

Brunswick, ME • Aug – Dec 2019

- Conducted review sessions for college calculus students

Mentor/Tutor, REAL School

Brunswick, ME • Fall 2018 – Fall 2019

- Designed and taught science lessons; mentored nontraditional high school students

EMPLOYMENT EXPERIENCE

Mathematics Faculty; Admissions Associate

Oakland, CA • Jul 2022 – May 2023

The College Preparatory School

- Taught high school math (algebra, calculus, probability theory, complex analysis) via student-led discovery method
- Conducted admissions outreach focused on Spanish-speaking Bay Area communities; organized and graded incoming student math placement

Community Health Educator II

Oakland, CA • 2021

La Clínica de la Raza, Casa CHE

- Canvassed Oakland's Fruitvale district to improve COVID-19 vaccination confidence; executed bilingual community outreach

Cooking Instructor / Head Intern

Emeryville, CA • Summers 2013 – 2017

Cook! Culinary Programs

- Cooked and cleaned in a commercial kitchen; instructed students in culinary technique one-on-one and in groups; supervised other interns

RESEARCH EXPERIENCE

Team Co-Leader: Clinical Informatics / Fall Risk NLP

Los Angeles, CA • Nov 2025 – present

Clinical Informatics, Regional Quality Improvement, KPSOM collaboration; Advisors: Y. Huang PhD, D. Oliver MD PhD

- Leveraged NLP models to optimize regionwide fall-risk prevention intervention; designed statistical regime and optimized prompt design for scalability

Advocate and Student Researcher: Disability Medical Education

Los Angeles, CA • Feb 2025 – present

KPSOM; Advisor: Dr. K. Ludwig PhD

- Defined a novel set of assessment criteria for disability MedEd focused on patient-centered, scalable outcome measures

Team Leader: Burn Model System / UDJAT Score

Pasadena, CA • Jan 2025 – present

KPSOM & University of Washington collaboration; Advisors: B. Stewart MD PhD MPH, S. Behseta PhD

- Led an institutional collaboration to redefine burn injury severity scoring using routinely collected burn chart diagrams
- Designed a hierarchical Bayesian/computer-vision regression pipeline that outperforms conventional mortality-based severity scores
- Generalizing the architecture to prognosticate functional outcomes; pursuing grant funding for a web-based clinical calculator

Team Co-Leader: Alcohol Use Disorder & Psychiatric Comorbidity

Los Angeles, CA • Nov 2024 – present

Kaiser Permanente Southern California, Dept. of Hepatology; Advisor: J. Sim MD

- Deployed ICD-9 and -10 codes to characterize psychiatric disease burden on KPSC patients with AUD

Team Co-Leader: Quality Improvement, Statin Adherence

Pasadena, CA • Aug 2024 – Nov 2026

KPSOM and KP SCAL Quality Improvement collaboration; Advisor: R. Glezer DO

- Developed analytic pipeline; translated outreach materials into Spanish; helped administer project

Team Leader: Peritoneal Dialysis Exit-Site Infections

Pasadena, CA • Jan 2024 – present

Kaiser Permanente Southern California, Dept. of Nephrology; Advisor: T. Imam MD

- Designed an analytic framework in R using imputation techniques and regression modeling on a complex, systemwide dataset of exit-site infections

Team Leader: Social Needs & Hypertension Scholarly Project

Pasadena, CA • Jul 2023 – present

KPSOM/KP Interregional Quality Improvement collaboration; Advisors: Q. Ngo-Metzger MD, C. Nkonde-Price MD

- Managed an interregional collaboration (KP Northern CA, Southern CA, Washington, Colorado) using HEDIS and SONNET Social Needs survey data

Student Researcher, Bumblebee & Cricket Behavior

Brunswick, ME • 2020 – 2021

Mathematics & Ecology / Neuroscience Depts., Bowdoin College; Advisors: P. Jones PhD, H. Horsch PhD, J. O'Brien PhD

- Developed a hierarchical Bayesian statistical model (discrete- and continuous-time Markov chains, Metropolis-Hastings/MCMC, Hamiltonian Monte Carlo) for bumblebee foraging behavior
- Engineered a bioinformatic pipeline and novel visualization/analysis metrics for cricket behavioral assay data

Student Researcher, Peptoid Laboratory

Brunswick, ME • Fall 2019

Chemistry Dept., Bowdoin College; Advisor: B. Gorske PhD

- Designed, synthesized, and analyzed biomimetic thiopeptoids targeting the WW binding domain relevant to cancer and Alzheimer's pathways, applying $n \rightarrow \pi^*$ interaction theory

Research Intern, Quality Improvement

Oakland, CA • Summer 2019

Kaiser Permanente Perioperative Clinic; Advisors: R. Yeldandi MD, S. Sarafian MD

- Led a project improving patient care experience through early perioperative educational intervention; administered Mini-Cog delirium screening; workflow adopted region-wide

Research Intern, Hospital-Based Medicine

Oakland, CA • Summer 2018

Kaiser Permanente Hospital; Advisors: Y. Lee MD, L. Virk MD

- Worked with hospitalists and Lean Methodology project managers to increase discharge efficiency; developed "The Discharge Card" through iterative patient/physician interviews

Student Researcher, Biomechanics of Griffenflies

Brunswick, ME • 2018 – 2024

Mathematics & Biology Depts., Bowdoin College; Advisor: O. Ellers PhD

- Conducted quantitative biomechanical analysis structuring an argument against hyperoxia as the driver of giant dragonfly aerodynamics

SKILLS & HOBBIES

- Linguistic: Spanish (professional working proficiency; CCLA-certified medical interpreter); Portuguese (intermediate); English (mother tongue; writing coach experience, professional rhetoric & grammar)
- Technological: R statistical software (incl. Stan, ggplot2), LaTeX, GitHub, Final Cut Pro, Adobe Premiere Pro, Anki, Microsoft Office; exposure to Mathematica, MATLAB, Python, JavaScript, C++
- Hobbies: tennis, calisthenics, weightlifting, hiking, classical piano, board/card games, cinema (500+ films logged on Letterboxd), cooking/baking, skiing, open-water swimming, travel
